

# Centre for Green Transition

**Aalborg  
Kommune**

# Purpose of the Center

Established 2013

- partnerships and co-creation
- engage citizens, companies and others where their interests/needs are
- give the participants involved ownership in projects in order to ensure that they 'live on'.
- support the existing strategies and plans
- develop projects, which can help realise strategies and plans
- coordination across sectors
- communication and dialogue
- fundraising for new and already existing projects
- inform and guide citizens towards funding opportunities

Kommune**

# Network for Sustainable Business Development North Denmark

A network for regional companies

The aim of the network is to strengthen the participating companies' competitive advantages through sustainable initiatives.

The network is a public-private cooperation between the municipalities in Northern Denmark, local business bureaus, the local utility company, Aalborg University and private companies.

All members of NBE are offered a Sustainability Screening, which gives an overview of potential environmental improvements such as energy optimisations, waste reductions, industrial symbiosis etc.

A team of specialists within sustainability and business development carries out the Sustainability Screening, which is conducted at the company's premises

***New branch started: Network for Sustainable Agriculture***

# Nilüfer - Transformative Action Award Winner, 2017

## The Basque Declaration

The [Basque Declaration](#) outlines new pathways for European Cities and Towns to create productive, sustainable and resilient cities for a liveable and inclusive Europe. The document aims to support and accelerate socio-cultural, socio-economic and technological transformation. The Basque Declaration was acclaimed by the participants of the 8th European Conference on Sustainable Cities & Towns held in the Basque Country from 27-29 April 2016.
