RecyApp - Problem

Only **17%** of the Colombian population recycles of your own waste and the average waste in this country is **19%**; these problems generate: emissions of greenhouse gases (**CH₄** and **CO₂**) because the waste reaches landfills without separating, bad smells (**H₂S**, **SO₂** and **NH₃**) and diseases to people who live near these places. Opportunities

RecyApp - Current waste recolection process

RecyApp

RecyApp - Context

More of the **80%** of **colombian people** show concern about waste separation.

Approximately the **70%** of the **Colombian population** have a smartphone.

6 out of **10** **Colombian homes** have internet.

In Bogota, daily **1.200 tons** waste is diverted from landfill (**19%** of all daily waste) by more of **12.999** recyclers.
In Medellin, daily **390 tons** waste is diverted from landfill (**29%** of all daily waste) by more of **3.680** recyclers.

RecyApp – SMEs

Of 33.013 mike establishments to September, 2016, 31,9 % was using some good TIC: 24,4 % was using computer of office, 7,3 % was using portable and 8,6 % was using others.

RecyApp – Street Recycler

69,1 % of the street recyclers have health service by state, only 5,3 % pay for this and the other not have have health service.

The 74,4 % have elementary education between primary or are high school, only the 1 % have university studies and another 1 % have technical and / or technological studies.

Phase # 4

Implementation RecyApp pilot.

Phase # 5

Performance evaluation to implementation of the RecyApp pilot.

Phase # 6

Develop of definitive mobile App.

Phase # 7

Implementation of the project in several neighborhoods in Bogota

Phase # 8

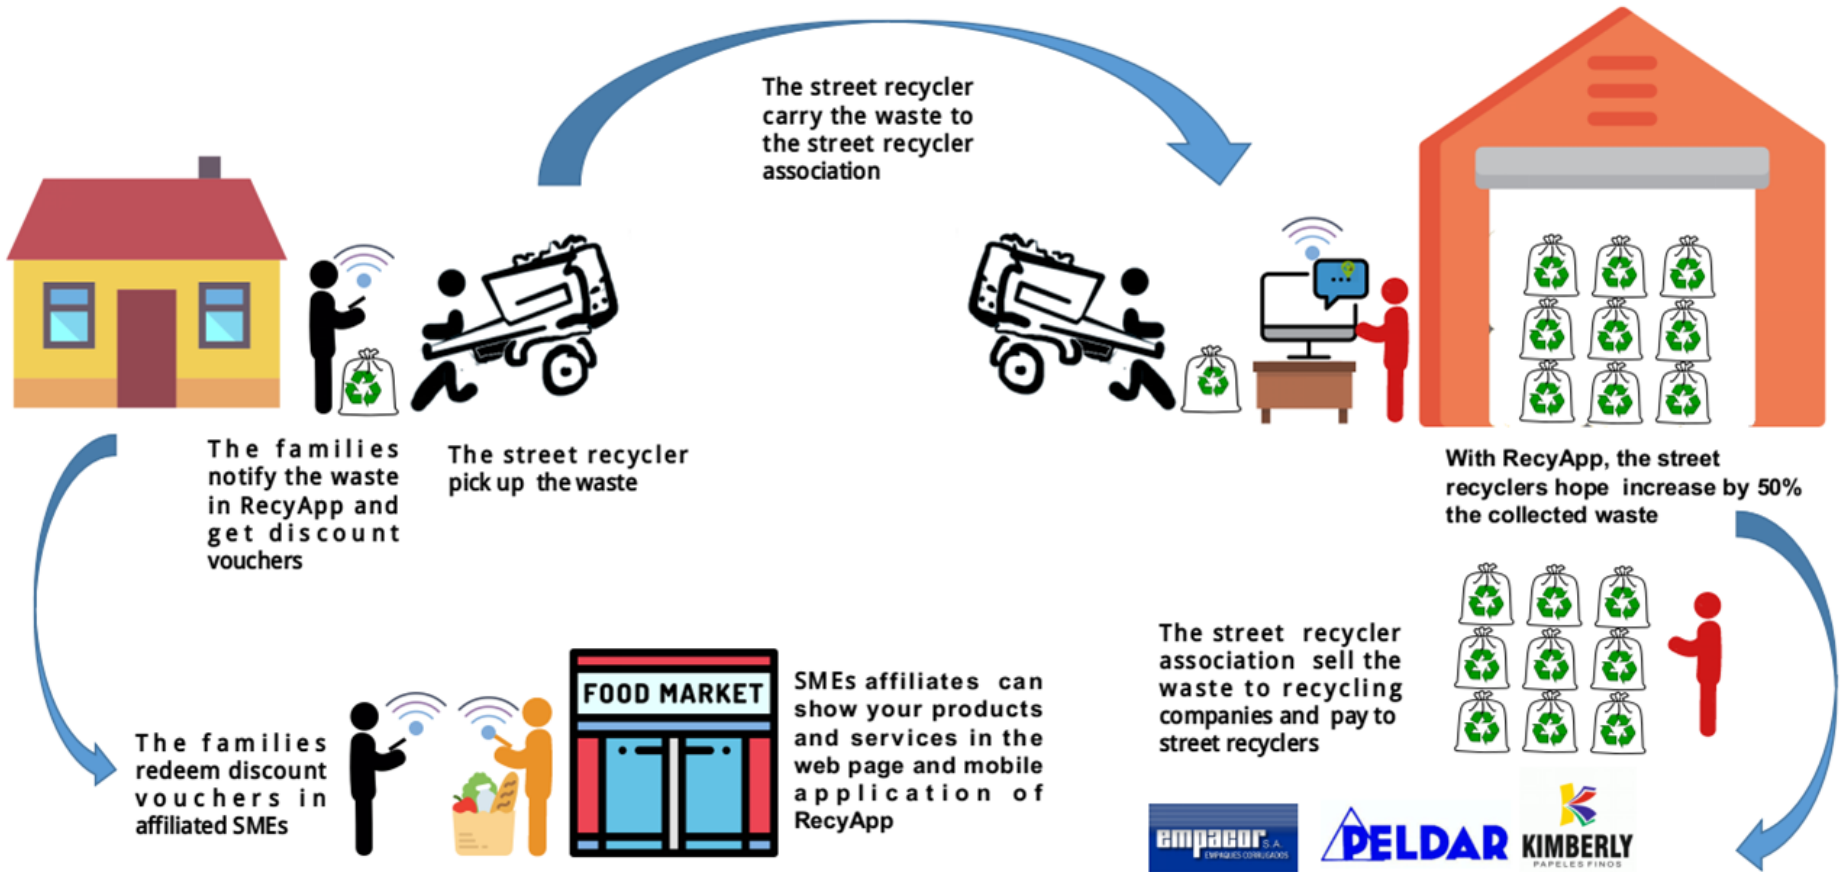

Performance evaluation to implementation of the RecyApp.

RecyApp - Sustainability

RecyApp will sell basic advertising packages that include: mailing, notifications to App users , advertisement in social network (premium service) to SMEs with assets under of \$137.281 USD and have less of 10 employees. This way of financing is selected because **Colombia have 2,5 million of SMEs that generate more of the 66% of the jobs in this Country and brings the 28% Gross Domestic Product -GDP.** Additionally, Only the **1% of the Colombian SMEs are encouraged in the digital marketing.** *The Cost of this service is 12 USD for 3 months.*
